SCORE REPORTING

Policies pertaining to score reporting and use are periodically reviewed and revised by the GRE Board. The policies and procedures explained in the 2014-15 *GRE Information and Registration Bulletin* are effective only for the time period of July 1, 2014 to June 30, 2015 and supersede previous policies and procedures in previous bulletins. GRE scores are reportable for five(5) years following the testing year (July 1 to June 30) in which you tested. Currently, GRE scores earned after July 1, 2009 are available.

PERCENTILE RANK (% BELOW)

The percentile ranks in this report indicate the percentage of examinees who scores below your score. Note that these percentile ranks may be different from those that applied when the scores were originally reported to you if the scores were earned prior to July 2014. This reflects annual updating of these data to permit admissions officers to compare scores, whenever earned, with those for a recent reference group.

RETAKING A GRE TEST

You can take the GRE revised General Test once every 21 days, up to five times within any continuous rolling 12-month period (365 days). This applies even if you canceled your scores on a test taken previously. You may take the paper-based GRE revised General Test and GRE Subject Tests as often as they are offered.

Note: This policy will be enforced even if a violation is not immediately identified (e.g., inconsistent registration information) and test scores have been reported. In such cases, the invalid scores will be canceled and score recipients will be notified of the cancellation. Test fees will be forfeited.

SCORES NOT REPORTED

"Scores Not Reported" is listed in the Report Date column of the Score Recipients section of your score report if one of three scenarios occurs:

- You requested scores to be sent to an undergraduate institution that does not receive scores.
- The code for the graduate institution you designated to receive scores is no longer active.
- Your reportable score record does not include scores for the requested test.

Note: This report is not valid for transmission of scores to an institution.

Reading Skills	Level	Your Performance
Reading	Intermediate (15–21)	<p>Test takers who receive a score at the INTERMEDIATE level, as you did, typically understand academic texts in English that require a wide range of reading abilities, although their understanding of certain parts of the texts is limited.</p> <p>Test takers who receive a score at the INTERMEDIATE level typically</p> <ul style="list-style-type: none"> • have a good command of common academic vocabulary but still have some difficulty with high-level vocabulary; • have a very good understanding of grammatical structure; • can understand and connect information, make appropriate inferences, and synthesize information in a range of texts but have more difficulty when the vocabulary is high level and the text is conceptually dense; • can recognize the expository organization of a text and the role that specific information serves within a larger text but have some difficulty when these are not explicit or easy to infer from the text; and • can abstract major ideas from a text but have more difficulty doing so when the text is conceptually dense.
Listening Skills	Level	Your Performance
Listening	Intermediate (14–21)	<p>Test takers who receive a score at the INTERMEDIATE level, as you did, typically understand conversations and lectures in English that present a wide range of listening demands. These demands can include difficult vocabulary (uncommon terms or colloquial or figurative language), complex grammatical structures, and/or abstract or complex ideas. However, lectures and conversations that require the listener to make sense of unexpected or seemingly contradictory information may present some difficulty.</p> <p>When listening to conversations and lectures like these, test takers at the INTERMEDIATE level typically can</p> <ul style="list-style-type: none"> • understand explicitly stated main ideas and important details, especially if they are reinforced, but may have difficulty understanding main ideas that must be inferred or important details that are not reinforced; • understand how information is being used (for example, to provide support or describe a step in a complex process); • recognize how pieces of information are connected (for example, in a cause-and-effect relationship); • understand, though perhaps not consistently, ways that speakers use language for purposes other than to give information (for example, to emphasize a point, express agreement or disagreement, or convey intentions indirectly); and • synthesize information from adjacent parts of a lecture or conversation and make correct inferences on the basis of that information, but may have difficulty synthesizing information from separate parts of a lecture or conversation.

Speaking Skills	Level	Your Performance
Speaking about Familiar Topics	Limited (1.5–2.0)	Your responses indicate some difficulty speaking in English about everyday experiences and opinions. Listeners sometimes have trouble understanding you because of noticeable problems with pronunciation, grammar, and vocabulary. While you are able to respond partially to the questions, you are not able to fully develop your ideas, possibly due to limited vocabulary and grammar.
Speaking about Campus Situations	Fair (2.5–3.0)	Your responses demonstrate an ability to speak in English about reading material and experiences typically encountered by university students. You are able to convey relevant information about conversations, newspaper articles, and campus bulletins; however, some details are missing or inaccurate. Limitations of grammar, vocabulary, and pronunciation at times cause difficulty for the listener. However, they do not seriously interfere with overall communication.
Speaking about Academic Course Content	Limited (1.5–2.0)	In your responses, you are able to use English to talk about the basic ideas from academic reading or lecture materials, but, in general, you include few relevant or accurate details. It is sometimes difficult for listeners to understand your responses because of problems with grammar, vocabulary, and pronunciation. Overall, you are able to respond in a general way to the questions, but the amount of information in your responses is limited and the expression of ideas is often vague and unclear.
Writing Skills	Level	Your Performance
Writing based on Reading and Listening	Fair (2.5–3.5)	You responded to the task, relating the lecture to the reading, but your response indicates weaknesses such as <ul style="list-style-type: none"> an important idea or ideas may be missing, unclear, or inaccurate; there may be unclarity in how the lecture and the reading passage are related; and/or grammatical mistakes or vague/incorrect uses of words may make the writing difficult to understand.
Writing based on Knowledge and Experience	Fair (2.5–3.5)	You expressed ideas with reasons, examples, and details, but your response indicated weaknesses such as <ul style="list-style-type: none"> you may not provide enough specific support and development for your main points; your ideas may be difficult to follow because of how you organize your essay or because of the language you use to connect your ideas; and/or grammatical mistakes or vague/incorrect uses of words may make the writing difficult to understand.

THIS IS THE ONLY PERSONAL RECORD YOU WILL RECEIVE. PLEASE RETAIN FOR YOUR RECORDS.

This score report provides both section scores and a total score. An analysis of your strengths and weaknesses in English is included. The level pertaining to each skill should not be generalized beyond the performance on this test. Skill levels and their associated descriptions are not intended for use by colleges as part of their admission criteria and will not be used by institutions you have granted permission.
